PROFILE

Junior full-stack developer with over a year and a half experience in React and Next.js, delivering consistent, user-centric products in brand-driven environments. With a background in hospitality and a self-driven approach to learning, I bring strong business acumen and a commitment to customer satisfaction to my technical work. Experienced in collaborating with designers, working across the full stack — from API development to front-end delivery — and operating in Agile, CI/CD-driven teams. Known for adaptability, having worked across international deployments, and a continuous drive to grow. Seeking to add technical and strategic value in a full-time role.

WORK EXPERIENCE

Makr Shakr 04/2024 - 10/2025
Javascript Developer Turin , Italy

- Development and maintenance of various products in line with brand identity
- API development for hardware communication
- Development of the front-end in a team with experienced designers
- GitLab - Workflow and CI & CD
- Extensive experience in React and Typescript
- Contributed as a hybrid developer within a Jira-managed Agile environment, with international deployments for on-site product maintenance

McDonald's 2021-2023
Crew member Turin, Italy

- Professional interaction with clients
- Team working and trained new entry level employees
- Creating a safe, respectful and inclusive workplace course with certificate
- Worked with a large variety of different type of personalities, adapted to a new team often

STRENGHTS

Problem Solving
I make a real effort to solve problems and no matter what I usually come up with a solution.

Work Ethic
Approached every job with a humble attitude and became a key component through learning.
